ENEL GREEN POWER ENTERS TURKISH MARKET AFTER WINNING PUBLIC SOLAR TENDER

- *The company has won an energy supply contract for the Isparta solar photovoltaic project, which will have 23 MW of installed capacity*
- *Following its successful bid, Enel Green Power enters into the Turkish renewable energy market*
- *The electricity generated by the new plant will be supplied to a subsidiary of Turkey's utility TEIAS*

Rome, May 7th, 2015 – Enel Green Power (EGP) has entered the Turkish renewable energy market after being awarded, through its wholly-owned subsidiary Vektor S.A., the right to enter into a power supply contract with a subsidiary of the country's utility TEIAS for the 23 MW Isparta solar photovoltaic project. EGP was awarded all 23 MW of the capacity tendered by TEIAS in a public auction for the Isparta region of south-western Turkey.

The electricity produced by the Isparta solar park will be sold to a subsidiary of Turkish utility TEIAS as part of the government's Feed-In-Tariff regime.

The Isparta facility, which is expected to be completed and enter into service in 2018, will be able to generate more than 35 GWh per year once fully operational, significantly contributing to meeting the rising demand for energy in Turkey in a way that is environmentally sustainable.

***Enel Green Power** is the Enel Group company fully dedicated to the international development and management of renewable energy sources, with operations in Europe, the Americas and Africa. With an annual generation capacity equal to approximately 32 billion kWh from water, sun, wind and the Earth's heat – enough to meet the energy needs of more than 10 million households – Enel Green Power is a world leader in the sector thanks to its well-balanced generation mix that provides generation volumes well over the sector average. As of today, the company has an installed capacity of more than 9,600 MW from a mix of sources including wind, solar, hydropower, geothermal and biomass. The company has about 740 plants operating in 15 countries.*
