

PRESS RELEASE

ENEL IS INTER'S NEW OFFICIAL ENERGY PARTNER

- *The leading company in the energy sector will be supporting the Italian football club over the next three seasons*

Rome/Milan, September 8th, 2023 – Enel takes the field with its energy solutions: it is now the Official Energy Partner of FC Internazionale Milano, as part of its efforts to accelerate the electrification of Inter's world. Through this agreement, Enel will provide the football club and its supporters with top-quality services and cutting-edge solutions that use energy from renewable sources. This partnership, which will bring the two brands together up through the 2025/26 season, is intended to celebrate the synergy between two brands that are renowned worldwide as leaders in their respective fields and both strive for continuous innovation.

Enel will be present at the San Siro stadium and its logo will be featured on the LED screens on the sidelines, on giant screens, and on the backdrops used for pre-match and post-match interviews for home championship matches. In order to fully enjoy the excitement and entertainment of a Serie A match, the club will also offer customized packages to the company's employees, customers and stakeholders as well as their families.

"This collaboration with FC Internazionale Milano is a joint commitment that will see the energy sector and the world of football come together to achieve the same goal: sustainability," said **Roberto Deambrogio**, Head of Communications at Enel. *"We are taking a major step forward by partnering with one of Italy's top teams so that we can provide an increasingly broad audience with our entire integrated portfolio of services and products, which we have specifically designed and developed to help people make easier and more convenient energy choices."*

"We are delighted to welcome Enel into Inter's family of partners. We are pleased that a leading brand such as Enel has chosen Inter to strengthen its presence in the world of football, and that it has realized that our club is driven by the same innovative spirit in all areas," said **Luca Danovaro**, Chief Revenue Officer of FC Internazionale Milano.

Enel is a multinational power company and a leading integrated player in the global power and renewables markets. At global level, it is the largest renewable private player, the foremost electricity distribution network operator by number of customers served, and the biggest retail operator by customer base. The Group is present in 30 countries worldwide, producing energy with a total capacity of about 88 GW.

Founded in 1908, FC Internazionale Milano – more commonly referred to simply as Inter – is globally renowned as one of the world's leading and most successful football teams. The club's trophy haul includes 19 Italian league titles, 9 Coppa Italia cups, 7 Italian Super Cups as well as – at international level – 2 Champions UEFA Cups, 1 Champions League Cup, 3 UEFA Cups, 2 Intercontinental Cups and 1 FIFA Club World Cup. Inter is one of only seven teams, and the only one in Italy, to have won the UEFA Champions League, the national championship and the national cup in the same season (2009-2010). It is also the only Italian team to have always played in the top division of the Italian league and the only one to have participated in all editions of the Serie A. Under the ownership of the Suning Group since June 2016, Inter is a global brand with more than 500 million followers worldwide.
